

K-Love radio station 94.9 in Ripley Tn. is extremley important to our listening area. There is no other station of its kind in our area. It is a very positive influence on the communities youth as well as many adults. I believe it helps to promote good morale values, which in turn reduces crime and unwanted pregnancies in our teenagers. By allowing an LPFM to displace K-Love in our area (the station is approx. 60 miles away) would be devistating to our kids. This is the only positive contemporary station we have. Please do not allow this to happen to us! I support K-Love financially and prayerfully, and it is the only station my family listens to.

Thank you very much and may God bless you and your family!
